

THE BIG IDEA

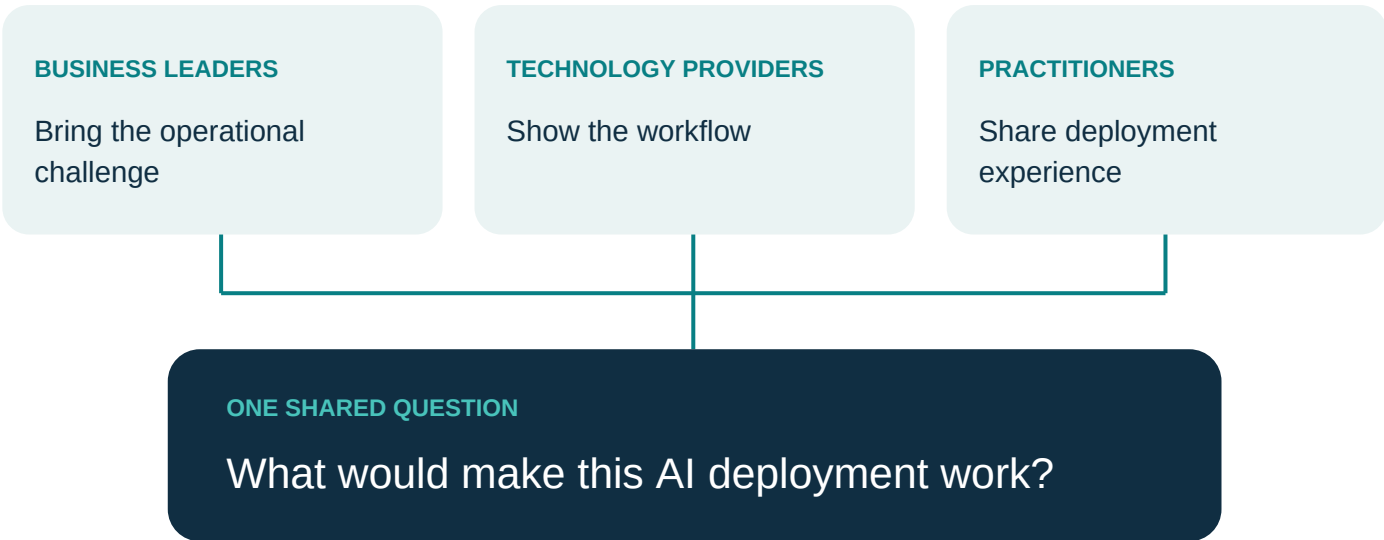

AI Deployment Forum 2027

Practical AI deployment for business

SINGAPORE / 2027 INTENDED

DATE & VENUE TO BE CONFIRMED

A founding forum to connect **business needs**, **relevant technology** and **implementation experience** - helping organisations understand what it takes to put AI to work.

FROM INTEREST TO AN INFORMED NEXT STEP

01

Explore

Use cases

→

02

Examine

Demonstrations

→

03

Discuss

Deployment

→

04

Connect

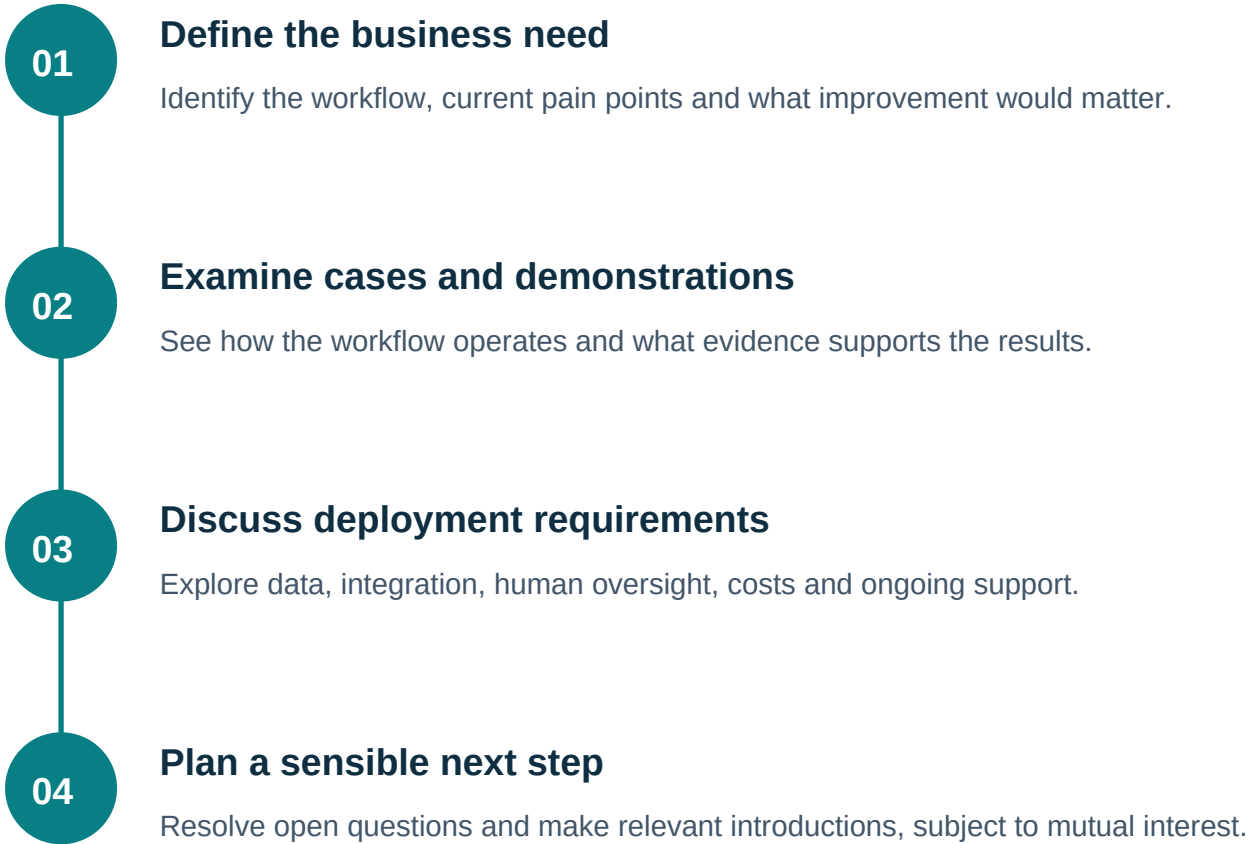

Relevant people

Expressions of interest are open. This is programme development, not ticket sales or confirmed bookings.

THE PARTICIPANT EXPERIENCE

A clearer path from problem to deployment

The proposed programme makes the requirements behind an AI demonstration visible.

THE DEPLOYMENT LENS

DATA Quality & access	SYSTEMS Integration	PEOPLE Ownership	VALUE Cost & evidence
---------------------------------	-------------------------------	----------------------------	---------------------------------

Illustrative sequence; agenda and contributors are unconfirmed. Takeaways are programme aims.

ILLUSTRATIVE USE CASES

Make the workflow visible

Three examples of the kind of practical demonstrations the Forum aims to explore.

01

Customer-enquiry assistance

Enquiry

→

Approved sources

→

Human escalation

Assess: accuracy, rework and total handling effort.

02

Document processing

Incoming document

→

Extract information

→

Review exceptions

Assess: errors, correction effort and completion time.

03

Internal knowledge assistance

Question

→

Permitted sources

→

Source-linked answer

Assess: answer quality, retrieval time and missing evidence.

EVERY SHOWCASE SHOULD EXPLAIN

Problem + workflow / Data and systems / Prototype or production
Human control + failure handling / Evidence for any results

Illustrative examples, not confirmed exhibits or customer cases. Demonstrations should use synthetic or permissioned data.

PARTICIPATION

Help shape the founding edition

Choose the conversation that fits your role.

01 Prospective delegates

Share your role, business challenge and what would make the Forum useful to you.

02 Showcase partners & sponsors

Explain the problem your solution addresses, what you can demonstrate and its deployment maturity.

03 Case-study contributors

Propose a deployment story, lessons learned and the evidence or permissions available.
